BALIUJE #2 / БАЛЮЖЬЕ №2 **1 pcs** **750 P**

Baliuje is an oyster from warm seas of Namibia. The oyster has juicy and well-structured meat. Its taste can be characterized as sweet with milky-marine hints and light mineralized aroma.

Baliuje oysters have quality certificate and farm stamps with logo on shells. The stamps have only the oysters that are on the top of quality and taste season.

CASABLANCA #1 / КАСАБЛАНКА №1 **1 pcs** **760 P**

Casablanca is an exotic Moroccan oyster with tender meat and intense sweet-salty taste and slight marine aroma. Greeny colour of the oyster shell takes place because of seaweed of the bays Dahla and Walidia where claires are located. Upon the non-european-seas oysters Casablanca is one of the most titled. It has been brought up in Morocco from the middle of the 19th century. Nowadays Casablanca oyster has become "classical" as White Pearl and Fin de Claire.

DUSS #2 / ДУСС №2 **1 pcs** **780 P**

Duss is an oyster from Dahla bay of western Sahara. The Moroccan farm location by peninsula protects the oysters from ocean waves. The seaside is famous for its white sandy shores and because of that the oysters' shells have peculiar light shades. These selected oysters are grown in sea cages with the lowest in-cage quantity. As the result the mollusks receive more nutrition and gain their dense muscle.

Duss oysters have good occupancy of white dense meat. Their distinctive feature is rather large "shank" which is obligatory to taste. While opened the oyster has bright iodine aroma and its taste surprises by meat density and nutty hints.

Moroccan Royal Palace kitchen orders these magnificent oysters.
